

Lane Engineering, LLC

FALL 2019 NEWSLETTER

FEATURED PROJECTS OF THE MONTH

BAY BRIDGE COVE, STEVENSVILLE, MD

We have been working with the McKee Group for many years on this 55+ community of 273 homes located in Kent Island, Maryland. The community has been under construction now for several years. A new MD Route 8 entrance to Bay Bridge Cove and the Ellendale community, another Lane Engineering project, is coming soon.

THE COUNTRY SCHOOL, EASTON, MD

The staff at Lane Engineering were very happy to attend the September 9th Ribbon Cutting for The Country School's major addition and new parking lot that has positively transformed the Goldsborough Street entrance to the Town of Easton, Maryland.

MARLBORO PLACE, EASTON, MD

Marlboro Place is an infill residential community of 18 apartments providing much needed affordable housing near downtown Easton. Under construction with occupancy to start in October, 2019.

MARINE PERMITTING & DESIGN

Protection of eroding shorelines with both hardened materials and environmentally friendly living shorelines is beneficial to the Bay and to our Clients. Lane Engineering, LLC specializes in marine permitting for piers and lifts as well as design and permitting for shoreline protection.

ON THE BOARDS

Lane Engineering, LLC, is pleased to have been selected by K. Hovnanian Homes to complete the survey and design for Phases 2, 3 & 4 of Four Seasons at Kent Island. This private 55+ community of 1,079 homes will be located in Queen Anne's County. More on this project to come.

Four Seasons – K. Hovnanian Homes

COMMUNITY PARTICIPATION

The Lane Team at the Easton Elementary School construction parade. Lane Engineering provided civil site design and surveying for the new school project for Talbot County Public Schools in Easton, MD.

Proud Sponsors of the Talbot Goes Purple Initiative that is now spreading its positive message about ways to address opioid abuse throughout the Eastern Shore.
